Making Sense of Autism

Basic autism awareness training for all staff within education settings: Mainstream and special schools. It will support participants to:

- Identify the four key areas of difference that need to be taken into account.
- Know the importance of understanding the individual pupil and their profile of strengths and areas for development.
- Identify the key areas to help pupils on the autism spectrum build positive relationships with staff, peers, families and people in their community.
- Develop an awareness of the sensory and communication differences that pupils may experience.
