

# Removing Barriers - Dyscalculia

Suitable for SENCO, Teachers, HLTA's, TAs

Led by Jane Cottee

## Dorset Council Education and Early Help

Jane has extensive experience of teaching maths to Key Stage 2 children with SEN in mainstream settings; she has over 20 years of experience of mainstream maths teaching, both mixed-ability and teaching lower-ability maths sets. Since joining Dorset Council as an SEN Advisory Teacher, she has also taken on the maths training for accredited courses and developed the dyscalculia courses and assessments.

Please book via:

[www.bcpworkforcedevelopment.co.uk](http://www.bcpworkforcedevelopment.co.uk)

**Date:** 21st April 2021

**Time:** 1pm – 4 pm

**Virtual Delivery by  
Zoom**

**Cost:** £50— Boost funding  
available for BCP Schools

This course is aimed at both teachers and teaching assistants. It explores why different specific learning difficulties make it harder for some children to learn about numbers and reviews the current research and understanding of dyscalculia. The course offers practical advice for staff working with children who are experiencing difficulty with maths. This includes strategies for whole class teaching as well as for individual or group intervention

Delegates will develop their understanding of dyscalculia and learn about the impact of specific learning difficulties on the development of numeracy skills. Practical strategies that are used to support children with numeracy difficulties will be shared.
