

# PEIC-D Workshop

Led by

**Dorset Paediatric Speech and Language  
Therapy Service**

*Suitable for SENCOs, Class Teachers, Teaching Assistants and any staff  
working with children / young people with language acquisition difficulties*

The PEIC-D approach revisits early interaction skills such as imitation, turn-taking and interaction. These skills are often poorly developed in children with severe and/or complex learning difficulties, including autistic spectrum disorders.

By working through a series of steps, using game formats, the child learns to watch others' play, join in, and then take part in turn taking sequences. Later stages include learning to initiate games, and negotiating the rules.

These 2 half day workshops provides background to the PEIC-D approach, detailed description of each stage, as well as workshop activities to practice the techniques, and consider how to implement within educational settings.

**Wednesday 20th October 2021 &  
Wednesday 3rd November 2021  
1–4pm. Delivered via Zoom**

**Attendance at both sessions is essential**

Please book via [www.bcpworkforcedevelopment.co.uk](http://www.bcpworkforcedevelopment.co.uk)

Places are limited to 35

£110 per delegate

**Boost funding available for BCP Schools**
