

# Dyscalculia

Led by Jane Cottee

**Dorset Council Education and Early Help**

This course explores why different specific learning difficulties make it harder for some children to learn about numbers and reviews the current research and understanding of Dyscalculia. The course offers practical advice for staff working with children who are experiencing difficulty with maths. It includes strategies for whole class teaching as well as for individual or group intervention

Delegates will develop their understanding of dyscalculia and learn the impact of specific learning difficulties on the development of numeracy skills. Practical strategies that are used to support children with numeracy difficulties will be shared.

**Date:** 24th January 2022

**Time:** 1pm – 4 pm

**Virtual Delivery by Zoom**

**Cost:** £75— **Boost funding available for BCP Schools**
